

Customized 3D Printing Aircraft Parts Sandblasting

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Post-Processing: Sandblasting
- Design Software: SolidWorks
- MOQ: 1 Piece
- Tolerance: $\pm 0.2\text{mm}$
- File Format: STL,IGS,STP
- Lead Time: 7-10 Days
- Color: White
- Printing Technology: FDM
- Highlight: Customized 3D Printing Aircraft Parts,
Sandblasting 3D Printing Aircraft Parts

Product Description

Product Description:

3D Printed Parts are components which are created through 3D printing technology. This technology, also known as FDM (Fused Deposition Modeling), is used to create 3D objects from a digital model. The 3D Printed Parts are printed with a printing layer of 0.2mm which results in an incredible level of detail and accuracy. After the 3D Printed Parts are printed, they are subjected to post-processing techniques such as sandblasting to add the desired texture and finish. The lead time for these 3D Printed Parts is around 7-10 days, making them a great choice if you need a part quickly. Industrial applications are one of the major uses of 3D Printed Parts due to their durability and precision.

Features:

Three-Dimensional Parts
3D Printed Components
Three-Dimensional Prints
SolidWorks Design Software
Lead Time: 7-10 Days
Post-Processing: Sandblasting
File Formats: STL, IGS, STP
Surface Finish: Smooth

Technical Parameters:

Attribute	Value
Design Software	SolidWorks
Lead Time	7-10 Days
Printing Technology	FDM
Printing Layer	0.2mm
Application	Industrial
File Format	STL,IGS,STP
Material	PLA
Surface Finish	Smooth
Tolerance	±0.2mm
Size	Customized

Applications:

3D Printed Parts from **ywy** is the perfect solution for manufacturing custom 3D printed components. With model number **ywy222**, and a minimum order quantity of **1 Piece**, this 3D printed component is made from the highest quality materials and is capable of achieving a smooth surface finish with sandblasting post-processing. This 3D printed component utilizes the best in **FDM** 3D printing technology and is compatible with **STL, IGS, STP** file formats. This 3D printed component is highly customizable and is perfect for a variety of applications and scenarios.

Customization:

Welcome to YWY 3D Printed Parts customization services. We provide world-class 3D printing products and services, including 3D printing of three-dimensional parts. Our products feature the following attributes:

Brand Name: YWY

Model Number: YWY222

Place of Origin: Guangdong, Huizhou

Printing Layer: 0.2mm

MOQ: 1 Piece

Printing Technology: FDM

Color: White

Application: Industrial

Our 3D printed parts are perfect for a variety of industrial and commercial applications, ranging from automotive to aerospace. We are

committed to providing you with the highest quality 3D printing products and services. So don't hesitate to contact us if you are in need of three-dimensional parts printing services.

Support and Services:

3D Printed Parts provides technical support and services for a wide range of 3D printing products. Our team of experienced technicians are available to assist with any questions you may have about 3D printing technology. We offer troubleshooting, maintenance, and repair services for 3D printers and related components. We also provide training and educational materials for users of 3D printing technology. Our goal is to ensure that you get the most out of your 3D printing experience.
