

Precision Copper CNC Stamping Parts with Polishing / Zinc Plating / Nickel Plating

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc606

Product Specification

- Color: Customized
- Processing Method: CNC Stamping
- OEM/ODM: Acceptable
- MOQ: 1000pcs
- Application: Automotive, Electrical, Electronic, Industrial, Etc.
- Material: Stainless Steel, Carbon Steel, Aluminum, Copper, Brass, Etc.
- Packaging: Carton, Wooden Case, Pallet, Etc.
- Tolerance: ± 0.01 mm
- Highlight: **Nickel Plating CNC Stamping Parts,**
Zinc Plating CNC Stamping Parts,
Polishing CNC Stamping Parts

Product Description

Product Description:

Our CNC Stamping Parts are produced using the latest metal stamping processes to ensure that you receive high-quality products that meet your every need. Computer Numeric Control Stamping enables us to produce accurate and precise parts that are perfect for your application.

We take pride in our ability to create customized parts that are tailored to our customers' needs. Our team of experts works closely with you to understand your requirements, ensuring that our CNC Stamping Parts meet your specifications.

Whether you need CNC Stamping Parts for automotive, electrical, electronic, industrial, or any other application, we have got you covered. Our products are versatile and can be used in various industries, making them an excellent choice for your next project.

We understand the importance of quality, which is why we use only the best materials and processes to create our CNC Stamping Parts. You can be assured that our products will last, and that they will perform as expected, even in the most demanding environments.

Our CNC Stamping Parts are available in different shapes and sizes, ensuring that you get exactly what you need for your project. So, if you're looking for a reliable supplier of CNC Stamping Parts, look no further. Contact us today, and let us help you with your next project.

Features:

Product Name: CNC Stamping Parts

Size: Customized

MOQ: 1000pcs

OEM/ODM: Acceptable

Processing Method: CNC Stamping

Surface Treatment: Polishing, Zinc Plating, Nickel Plating, Chrome Plating, Anodizing, Etc.

This product utilizes metal forming processes such as CNC stamping, which creates precision sheet metal parts. It is customizable and available for OEM/ODM orders.

Technical Parameters:

Packaging	Carton, Wooden Case, Pallet, Etc.
Shape	Customized
OEM/ODM	Acceptable
Tolerance	± 0.01 mm
Processing Method	Computer Numeric Control Stamping (CNC Stamping), Sheet Metal Fabrication, Precision Sheet Metal Parts
Material	Stainless Steel, Carbon Steel, Aluminum, Copper, Brass, Etc.
Surface Treatment	Polishing, Zinc Plating, Nickel Plating, Chrome Plating, Anodizing, Etc.
Sample	Available
Size	Customized
MOQ	1000pcs

Applications:

The CNC Stamping Parts are designed with precision and accuracy to meet the specific needs of various industries. They are also available in different surface treatments such as polishing, zinc plating, nickel plating, chrome plating, anodizing, etc. to enhance their durability and longevity. With these surface treatments, the CNC Stamping Parts are protected against rust, corrosion, and wear and tear. The packaging of the CNC Stamping Parts is also designed to ensure their safety during transportation. They can be packaged in cartons, wooden cases, pallets, etc. depending on the order size and customer requirements. Additionally, samples are available to allow customers to test the quality of the CNC Stamping Parts before placing an order.

The CNC Stamping Parts are ideal for use in different scenarios such as creating electrical devices, manufacturing automotive parts, building industrial equipment, and more. They are used in many metal forming processes such as bending, punching, blanking, and more. With their high-quality materials and precision manufacturing, customers can expect reliable and durable performance from the CNC Stamping Parts.

Customization:

Our product customization services are available for the ywy CNC Stamping Parts, model number cnc606. These parts are manufactured in Guangdong Huizhou and can be made using a variety of materials, including stainless steel, carbon steel, aluminum, copper, brass, and more.

With a tolerance of ± 0.01 mm, these precision sheet metal parts are perfect for use in a variety of industries, including automotive, electrical, electronic, and industrial applications. The MOQ for customization is 1000pcs.

Our processing method for these parts is CNC Stamping, which is a type of metal forming process that uses a computer-controlled machine to cut and shape sheet metal. With our metal stamping processes, we can create highly detailed and precise parts to meet your specific requirements.

Support and Services:

Our CNC Stamping Parts product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experienced technicians and engineers are available to provide product installation, training, troubleshooting, maintenance and repair services. We also offer customization services to meet specific customer requirements and provide recommendations for improving product efficiency and performance. Our commitment to quality and customer service ensures that our CNC Stamping Parts product will meet and exceed your expectations.

Packing and Shipping:

Product Packaging:

All CNC stamping parts are individually wrapped in plastic to protect against scratches and damage during shipping.

Multiple parts are then packed into sturdy cardboard boxes with ample padding to prevent shifting and further protect against damage.

Shipping:

All orders are shipped via a reputable courier service to ensure timely delivery and accurate tracking information.

Shipping costs are calculated based on the weight and destination of the package and will be displayed at checkout.

Please allow 2-3 business days for processing and packaging before your order is shipped.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is ywy.

Q: What is the model number of this product?

A: The model number of this product is cnc606.

Q: Where is this product made?

A: This product is made in guangdonghuizhou.

Q: What type of parts can be stamped using this CNC machine?

A: This CNC machine can stamp a variety of parts including metal parts, electronic components, and plastic parts.

Q: Does this product come with a warranty?

A: We cannot provide warranty information as it is excluded from this Q and A.
