

Precision CNC Brass Parts Customizable and Durable Components for Industrial Machinery

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc404

Product Specification

- Supply_ability: 10000 Pieces/Month
- Package: Standard Export Package
- Application: Electronic Components
- Dimension: Customized
- Color: Customized
- Delivery_time: 7-15 Days
- Weight: Customized
- Processing_method: CNC Machining
- Highlight: **Customizable CNC Brass Parts,
Industrial Machinery CNC Brass Parts,
Durable CNC Brass Parts**

Our brass turned parts are crafted with meticulous attention to detail, ensuring they adhere to the highest quality standards. With a precision tolerance of $\pm 0.01\text{mm}$, you can rely on these parts for accuracy, minimizing the risk of errors or defects in your final product. We take great care in packaging and shipping our products to ensure they arrive in perfect condition. Our standard export packaging is designed to protect your parts during transit, so you can be confident they will reach you in the same pristine state they left our facility. Recognizing that each project has unique requirements, we offer customized options for the weight of our CNC brass parts. Whether you need a lightweight solution or a heavier component, we can tailor our offerings to meet your specific needs. At our facility, we strive to deliver orders promptly and efficiently. With a delivery time of just 7-15 days, you can expect your parts to be delivered quickly, maintaining the same level of quality and precision we put into their production. Our CNC brass parts are a reliable choice for any project, whether it's a small-scale endeavor or a large-scale production run. They are designed to meet your needs and exceed your expectations. We offer flexible payment options, including T/T, PayPal, and Western Union, making it convenient for you to complete your purchase in a way that suits you best.

Applications:

The CNC machining process allows for the creation of complex and intricate designs, making these brass parts suitable for a wide range of applications. The polished surface treatment further enhances the aesthetic appeal of the product, making it perfect for use in industries such as architecture, interior design and even fashion.

With a delivery time of 7-15 days, these brass CNC machining products are readily available for use in various scenarios. Here are some of the product application occasions:

Industrial Manufacturing: The use of CNC lathe brass pieces in manufacturing ensures high precision and accuracy in the production of products. These CNC Brass Parts can be used in the manufacturing of various industrial components such as valves, pumps, and electrical connectors.

Automotive Industry: The automotive industry requires high-quality parts that can withstand harsh environmental conditions. CNC Brass Parts can be used in the production of automotive components such as gears, valves, and bearings.

Electronics Industry: The precision of these brass parts makes them ideal for use in the production of electronic components such as connectors, terminals, and switches.

Medical Industry: The medical industry requires precision and accuracy in the production of medical equipment. CNC Brass Parts can be used in the production of medical equipment such as surgical instruments, implants, and devices.

Jewellery Industry: The polished surface of these brass parts makes them perfect for use in the jewellery industry. They can be used to make beautiful and intricate pieces of jewellery.

These CNC Brass Parts are shipped from the port of Shenzhen, ensuring fast and efficient delivery to customers worldwide. Order now and experience the quality and durability of ywy's CNC Brass Parts.

Customization:

At ywy, we offer product customization services for our precision brass fittings under model number cnc404. Our brass hardware products are made in guangdonghuizhou and can be customized to your preferred color and dimension.

With a supply ability of 10000 pieces per month, we ensure timely delivery within 7-15 days. Our payment terms include T/T, PayPal, and Western Union for your convenience.

Our CNC lathe brass pieces are designed to meet your specific requirements, ensuring a perfect fit for your project. Contact us today to learn more about our product customization services.

Support and Services:

Our CNC Brass Parts are designed to meet the highest standards of precision and quality. Our Technical Support team is available to assist with any questions or issues you may have with the product. We also offer a range of services including custom design and manufacturing, as well as testing and quality control. Our goal is to ensure that our customers receive the best possible product and service experience with our CNC Brass Parts.

Packing and Shipping:

The CNC Brass Parts will be packed securely in a durable and sturdy box to ensure safe transport. Each part will be wrapped in protective material to prevent damage during shipping. The packaging will also include a label with the product name and quantity.

Shipping:

Our company uses reliable and efficient shipping services to deliver the CNC Brass Parts to our customers. We offer various shipping options such as standard shipping, express shipping, and international shipping. The shipping cost will depend on the customer's location and preferred shipping method. Once the order is processed and shipped, customers will receive a tracking number to monitor the delivery status of their order.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is ywy.

Q: What is the model number of this product?

A: The model number of this product is cnc404.

Q: Where is this product made?

A: This product is made in guangdonghuizhou.

Q: What are the materials used to make this product?

A: This product is made of brass using CNC machining technology.

Q: What is the lead time for this product?

A: The lead time for this product is dependent on the quantity and complexity of the order. Please contact us for more information.
